PREFATORY NOTE

This index undertakes to deal only with the printed reports of administrative officers, legislative committees, and special commissions of the states and with governors' messages for the period since 1849. It does not refer to constitutions, laws, legislative proceedings or court decisions, except in so far as they happen to be found in the class of documents above mentioned. It attempts, on the other hand, to furnish a list, as complete as possible, of all the documents and messages which fall within its scope, in whatever form they may have been published, whether separately, in collected documents, legislative journals or volumes of laws, and to indicate the volume in which they may be found. In general, unless otherwise shown, the material indexed is in the New York Public Library. In addition to furnishing a list of reports and messages, the index undertakes to supply a reference by volume and page to all material of economic importance which they contain, with the exception of that contained in the reports of bureaus of labor. The reason for this exception is that these reports have already been indexed by Carroll D. Wright, late United States Commissioner of Labor,[1] in a volume published by his department in 1902.

Although the index is confined to matter of economic bearing, the term "economic" has been given a broad interpretation. In view of this liberal interpretation it is believed that the index will constitute a useful addition to the resources of students of almost any aspect of American history.

It will be seen that the present index differs both in scope and character from R. R. Bowker's "State Publications," the valuable pioneer work in this field. It is narrower in scope than "State Publications," which aims to present a list not only of reports and governors' messages but of all state documents; but in the field which the present work covers it contains not only a more complete list of documents than has hitherto been published but also an index of their contents in so far as these have an economic bearing.

The arrangement is alphabetical by topics. The references under each topic are divided into two groups, viz., "serial" and "non-serial." Within each of these divisions the arrangement is chronological. Numerous cross-references will, it is hoped, make it possible to discover with little difficulty all the material bearing on a topic. It is to be remarked that the division of serial reports into more than one series occurs whenever there is a change in title, in the authority making the report or in frequency of issue. It will be seen that this division is not an arbitrary one. It is made in the belief that the reason for it can be more clearly shown in this way than by a narrative explanation.

[1] Index of all reports issued by bureaus of labor statistics in the U. S. prior to Mch. 1, 1902. Wash., 1902. 287 pp. 8°.

Uniform entry words for subjects recurring in different states will be retained throughout the series. It will thus be possible to make a study not only of the historical development of an economic subject as reflected in the documents of an individual state but also to make a comparative study of that development as it has taken place in the country at large. To accomplish this purpose it has been necessary to make the selection of entry words without reference to the peculiarities of local usage, such peculiarities being recognized in the case of each state by cross-references. The abbreviations employed are believed to be sufficiently obvious to make a table of them unnecessary. Unless otherwise stated the size of the books is octavo.

A feature introduced in the New York part of this index, and not employed in the preceding parts (i. e. Maine, New Hampshire, and Vermont), is the system of references from locality. This feature has been made a part of the succeeding issues.

The present volume has been preceded by six similar volumes, confined to the states of Maine, New Hampshire, Vermont, New York, Rhode Island and Massachusetts, respectively. It will be followed by others, each devoted to a single state. The work when completed will, therefore, furnish an index to the economic material in the reports and governors' messages of all the states of the Union.

In the preparation of this volume the collection of the New York Public Library has been used as a basis. Acknowledgment for assistance in the collation of volumes not in the N. Y. Public Library is due to the California State Library, the Los Angeles Public Library, to the U. S. Bureau of Education, to the Library of Congress and to the U. S. Department of Agriculture.

With the foregoing rept. a change is inaugurated in the policy heretofore pursued in the method of publication. Thus far the bulk of the work of the experiment station had been published in (mostly bienniai) repts., ranging near 400 pages while only such matter as seemed of more pressing importance was published at once in the form of bulletins. This policy is now reversed by publishing results mainly in bulletin form so soon as completed, and to include in the repts. merely such matter as is not suitable for circulation in bulletins because being of minor interest to the State at large, or too technical in its nature.

STATE CONVENTIONS

1882-1892. Ann. vitic. state convention, 1-8.

Checklist

1. 1882. Not printed by state.

"Owing to a lack of funds in the State Printing Office, the proceedings of this convention were only published through the enterprise of the owners of the 'San Francisco Merchant' in the columns of that journal." (A.R. vitic. comrs. 1887: 11.)

2. 1883. Not printed by state.

"Again, owing to a lack of funds in the State Printer's Dept., the proceedings of this convention had to be turned over to private enterprise, and the 'San Francisco Merchant,' took charge of the same, publishing the proceedings in its columns." (ib., 11.)

3. 1884. Not printed by state.

"For want of an adequate apprn. in the State Printer's office, proceedings again printed in 'San Francisco Merchant.'" (ib., 11.)

4. 1886.* Not printed by state.

"Proceedings likewise published by 'San Francisco Merchant' for lack of funds." (ib., 12.)

5. 1887.* Not printed by state.

"In 1886, our funds having been exhausted in our endeavor to pass a National Pure Wine Bill, the conduction (sic.) of our convention was turned over to the Grape Growers' and Wine Makers' Assn. and held in S. F. under their auspices, in March, 1887. A copy of the proceedings you will find transmitted with this rept." (ib., 12.)

The compiler has not seen a copy of the proceedings referred to, and is not clear as to whether a copy printed by the Assn. mentioned or a copy in MS. was submitted. At any rate no copy was printed by the state.

REPORTS

Under Direction of Viticultural Commission

Under act of March 4, 1881.

"The law creating the state bd. of horticultural comrs. put the same under the direction of the viticultural commission to take charge of, together with the funds appropriated for its maintainment." (Ann. rept. vitic. comrs. 1887: 10.) The additional work thrown upon the vitic. comrs. by this arrangement caused them to apepal to the legislature for relief. The act of March 13, 1883 placed the horticultural commission upon an independent footing.

under sec. 9, statutes of 1889. In the opinion of the compiler no numbered bulletins were issued between nos. 7 and 50, the newly created board arbitrarily assigning no. 50 to the first of its series. No. 50 is regarded by the existing commission as the beginning of the file. The earlier nos. were intended for immediate and wide circulation and probably no record was kept of them. When the board of 1889 started its file, it is supposed a number was chosen for the beginning which would allow plenty of margin for such earlier numbers as might turn up without overlapping numbers.

no. 50.* Compilation of laws to protect and promote horticultural interests of state. 1889. 28 pp.

no. 51.* Laws relative to horticulture and remedies recommended for the destruction of injurious insects. 1889.

no. 52. Repts. of the San Bernardino and Tulare co. horticultural comrs. 1889. 5 pp.

no. 53. Regulations to prevent the spread of contagious diseases among fruit trees. 1889. 6 pp.

no. 54. Rept. of the Sutter co. bd. of horticultural comrs. 1889.

Not seen; taken from p. 18 Ann. rept. hortic. bd. 1889. See also note under next item.

no. 54. Historical sketch of rise and downfall of the cottony cushion scale; by George Rice. 1890. 8 pp.

Not seen; title supplied by Cal. State Library. Probably a case of duplicate numbering as in no. 67, below, and one is probably intended for no 55, but, which one, it has not been possible to ascertain from any of the sources resorted to by compiler.

no. 55. Cal. dried fruits and how to use them; by Prof. C. H. Allen. 1891 (?). 8 pp.

no. 56. Peach yellows. A warning to fruit growers; by B. M. Lelong. 1891. 29 pp., 1 map, 4 pls.

These two assignments, viz., no. 55 and 56 are suppositious. After considerable correspondence and research no record of these two bulletins was forthcoming. On p. 21 of the ann. rept. of the bd. of hortic. for 1891 there is an allusion to pamphlets, referred to as bulletins, relating to these subjects having been issued during the year. The pamphlet on Cal. dried fruits has not been seen by the compiler and that on Peach yellows is unnumbered. Although the assumption that these pamphlets were intended for these bulletins is reasonable, it is entirely probably that they have not been assigned to the correct numbers.

no. 57. Internal parasites discovered in the San Gabriel Valley; recommendations and notes. 1891. 7 pp.

no. 58. Peach-tree borers infesting deciduous trees; by A. Craw. 1891. 7 pp.

no. 59. Compilation of laws to protect and promote the horticultural interests of the state; act as amended. 1891. 7 pp.

no. 60. Regulations to prevent the introduction and spread of injurious insect pests and contagious diseases among fruit and fruit trees, and for the prevention, treatment, cure, and extirpation of fruit pests and of diseases of fruit and fruit trees; amended Nov. 20, 1891. 1891. 13 pp.

no. 61. Crops and fertilizers, with reference to Cal. soil and practice; a lecture by E. W. Hilgard. 1892. 16 pp.

no. 62. Regulations to prevent the introduction of injurious insect pests and contagious diseases among fruit and fruit trees. 1892. 7 pp.

no. 63. Fig drying and curing. Repr. from rept. of state bd. of hortic. for 1889. 1893. 7 pp.

no. 64. Ann address del'd by Hon. Ellwood Cooper, pres. of state bd. of horticulture, before 16th State Fruit Growers' Convention, held at San Jose, Nov. 1892. 1893. 14 pp.

no. 65. Fruit markets and transportation. Report to the State Fruit Growers' Convention, Los Angeles Nov. 21-24, 1893. 20 pp.

no. 66. Resolutions and repts. adopted by the Fruit Growers' Convention, Los Angeles, Nov. 21-24, 1893. 14 pp.

* No. 50 was supplied by Cal. State Library; no. 51 was taken from p. 18 ann. rept. bd. hortic. 1889. It is probable that both titles refer to the same bulletin, leaving one number blank. It is possible that the unnumbered bulletins on "The Olive in Cal.," issued in 1889, was intended to make up one of these numbers.

"The third ann. rept. of the comn. is contained in the second ann. rept. of the Chief Executive Viticultural Officer and covers the years 1882, 1883 and 1884." (Ann. rept. vitic. comrs. 1887: 11.) As worded, this statement is misleading. There is no division of the Viticultural Officer's rept. referred to specifically occupied with the rept. of the viticultural comn. What it was intended to say was probably, that the rept. of the Viticultural Officer would be submitted also as the comn's. rept.

No distinction is made by Cal. in her repts. between her viticultural and vinicultural interests. Both are comprised within the repts. of the vitic. comrs. Wherever possible the distinction has been made in this index, but it is advisable that persons interested in either the culture of the grape in Cal. or in the wine industry of Cal., should use both groups of material.

Under the act of 1878 the bank comrs. were required to make two repts. each year, one to the legislature during the first week of the session and one to the governor at the close of the fiscal year, i. e., June 30. This provision was unsatisfactory, and its repeal is frequently recommended in the comrs.' repts. The irregularity in the series is shown in the above checklist. Beginning with the sixth rept. the series is issued regularly as is shown below.

1892. Rept. on "national" bldg. and loan assns. 18 pp.
Not seen; entry from Bowker.
——. Comments on bldg. and loan assns. and suggestion that act be so amended as to relieve this comn. of its present connection with bldg. and loan assns. and that Cal. follow example of other states, wherein bldg. and loan assns. are put under special supervision. (14 A.R. bd. bank comrs. dated July 1, 1892: 4.)
1892-1894. Many so-called guarantee and loan assns. in state are foreign corporations doing business without local restraint; recommendation that law be passed compelling them to obtain license from bank comrs. before doing business, and requiring them to make deposit of securities with state treasurer. (Rept. atty. gen. 1891/2 (p. 7)—*same* 1893/4.)
1892-1896. Comparative table showing increase of business during past 2 yrs. of bldg. and loan assns. (1 A.R. bldg. and loan assns. 1893/4 (pp. 30-31) 3 *same* 1896.)
1893-1896. Table giving series matured during yr., giving names of assns., location, secy., date of maturity, dues, profits, etc. (1 *same* 1893/4 (p. 52)—3 *same* 1896.)
1894. Comments on ill-advised system of loaning; suggested not to allow member of bd. of directors to systematically further individual schemes at risk of assns.; to scrutinize each proposed loan carefully, and see that conservative estimate is placed upon property offered; to consider carefully standing and character of each applicant for loan. (1 *same* 1893/4: 7-8.)
——. Discussion of plans by which bldg. and loan assns. in state are managed; plan originally used; modifications of original plan to secure equalization of profits; the issuing of two classes of stock, one for borrowers, other for investors; gross premium plan; installment premium plan; premium stock plan; maintenance of reserve fund practiced by some institutions, a feature to be commended. (1 *same* 1893/4: 32-36.)
——. Comments on dissimilarity in plans in acct. keeping: discussion of principal books which should be kept for bldg. and loan assns.; treatment of various accts., dues, interest, premium, fees, and fines, principal revenue accts. (1 *same* 1893/4: 70-80.)
——. Suggestion that care should be taken in matter of paying taxes, to see that none of the mortgaged properties go delinquent and suffer a cloud on title, also if there should be a balance of assessment over deduction for mortgage, that this is paid as well. (1 *same* 1893/4: 84.)
——. Discussion of the 10 rules or plans for distribution of profits in vogue among assns. of state, with comparison of results. (1 *same* 1893/4: 36-50.)
——. Comments on deserved popularity of bldg. and loan plan in state; safety of such investments, being one of the most successful forms of financial co-operations ever devised for large class of people. (1 *same* 1893/4: 4-5.)

BUILDING AND LOAN ASSOCIATIONS—cont'd

non-serial—cont'd

——. List of books and docs. for benefit of those who may desire to inform themselves on history, theory, practice, and law of bldg. and loan assns. (1 *same* 1893/4: 85.)

——. Comments on laws governing bldg. and loan assns. (1 *same* 1893/4: 6.)

——. Under laws governing bldg. and loan assns. has custom when members borrow money from assn., that mortgage is given upon property to secure loan, at same time assignment being made of shares of stock in assn. to the assn. as additional security, and a proxy executed allowing assn. to vote stock at subsequent elections, result being that but few of persons borrowing from assn. vote at elections and bd. of directors have absolute power; remedial legislation suggested; also modification of sec. 9 of law governing bd. of comrs. of said assns., so that when comrs. find an assn. "is conducting its business in unsafe manner, etc." (Rept. atty. gen. 1893/4: 23-24.)

1894-1896. Stmt. of aggregates of resources and liabilities, and receipts and disbursements. (1 A.R. bldg. and loan assns. 1893/4 (pp. 24-25)—3 *same* 1896.)

Reports on meteorology had been issued by the Agric. Society since its organization. In the earlier years the data were supplied by private individuals. Between 1875 and 1881 almost no meteorological material was published by the Society. The U. S. Signal Office was first established at Sacramento in 1877, but no statistics were supplied by it until 1881. In 1881 and each following year brief climatic statistics were supplied to and published by the Society. In 1886 they first assumed a comprehensive, systematic character. From 1886 to 1894 they were published regularly as collated above. All that has been published by the Socy. has been indexed in this volume.

Bd. desires special attention to necessity of such legislation as will enable it accurately to determine limits of bay on landward side, and extent of jurisdiction of bd.; to fact that means should be provided for effectually establishing this jurisdiction and settling at once question at issue betw. state and all other claimants. (*Same* 1890/2: 5.)

——. To amend "act to establish political code" approved Mch. 12, 1872, by amdg. secs. 2589, 2595, 2605, and 2606 of said code, re. establishing bd. of state harbor comrs. for bay of San Diego. (*Same* 1890/2: 9-10.)

——. Recommendation for apprn. to force issue of legal contests now standing betw. bd. and revenue, and to give control of water front which belongs to state, rental of which would furnish all means required by bd. and provide sinking fund sufficient to repay apprn. at early date; etc. (*Same* 1890/2: 6.)

1898. Recommendation for sufficient apprn. to construct suitable wharf upon bay; income derived therefrom would be source of revenue to state to such an extent that bd. could continue improvements of harbor so that they would finally be adequate to wants of present commerce. (*Same* 1896/8: 5.)

WINE

No distinction is made by Cal. in her repts. between her viticultural and vinicultural interests. Both are comprised within the repts. of the vitic. comrs. Wherever possible the distinction has been made in this index, but it is advisable that persons interested in either the culture of the grape in Cal. or in the wine industry of Cal., should use both groups of material.

ANTE-STATE SURVEYS

Before the publication of the Trask surveys, noted below, the results of private exploration and travel as well as of explorations conducted under the auspices of the U. S. War Department, had begun to advertise the mineralogy and geology of California. A synopsis of the publications of these surveys is given in the history of the geological surveys of the state noted below in the non-serial group under dates of 1838-1880.

STATE SURVEYS

1 series

Trask Surveys

By jt. res. of March 5, 1853, Dr. John B. Trask was called upon for such information as he might possess, relative to the geology of the state.

1853. Rept. on the geology of the Sierra Nevada or Cal. Range; by J. B. Trask. 30 pp.
2000 copies printed. Reviewed in Mining Magazine 1853 v. 1: 6-23.

* The explanation of these two editions is set out at length in the first pages of the 612 p. ed. In brief it is that the original rept. as submitted to the bd. of examiners was so voluminous that the bd. declined to allow the printing of it, but printed only the rept. of the trustees of the mining bureau and the introduction to the rept. by the state mineralogist (1892. 28 pp.). Upon the mineralogists' rept. having been subsequently much reduced by editing and contraction, it was printed (1893. 612 pp.).

1890-1890/2. Same. (10 *same* 1889/90 (pp. 548-566)—11 *same* 1890/2.)

Geological features; water, flowing wells (wells of Stockton, surface wells at Lathrop and vicinity; surface wells to west of San Joaquin River, shallow wells on eastern side of San Joaquin Co., shallow wells at Lodi and northwestern portion of co.); natural gas (Stockton Natural Gas Co., No. Gas well, Crown Mills well, Paper Mills well, Asylum well, Cutler Salmon well, Lathrop well, McDugald well, Stockton Gaslight and Fuel Co.'s well; St. Agnes well, Court House well, Jackson well, gas in northeastern part of co., tabular records of strata penetrated by Asylum 1889 well, Northern, Crown Mills and Lathrop wells); manganese; coal; reduction works at Stockton; irrigation; San Joaquin Land and Water Co.; Woodbridge Canal and Irrigation Co.; Mokelumne Ditch and Irrigation Co.; by W. L. Watts, field asst.

Only Stockton Terra Cotta Co. and San Joaquin Brick Co. given in 11th rept.; by W. L. Watts, field asst.

SAN LUIS OBISPO COUNTY

1888. San Luis Obispo Co.—geographical and physical features; mineral resources; gold; silver; copper; quicksilver; chromite (Rackliff mine); electro-silicon; salt; lime; gypsum; coal; bituminous deposits; bldg. stone; narrative. (8 A.R. state mineralogist 1887/8: 529-533.)

1890. Same. (10 *same* 1889/90: 567-585.)

Topography and geological features (Sierra Santa Lucia range, San Jose range, Carrisa plains, Painted Rock, Monte Diablo range, Los Cerritos peaks, Buchon range containing Pecho sulphur springs, valleys); bituminous rock; San Luis Obispo Bituminous Rock Co. (mine no. 1, mines nos. 2 and 3, Mannel mine, mines nos. 1 and 2 of So. Ledge, Adams and Nichols mine); Cal. Bituminous Rock Co.; French mine; Neuval mine; Cal. Bituminous Block Mnfg. Co.; Carpenter Oil well; Sycamore Spring (artesian well); gold; La Panza gold mine; antimony; Pismo Beach black sand (auriferous); quicksilver (Josephine, Sunderland, Oceanic, Pine Peak, Ocean View, Keystone, Rinconada mines described); chromium; diatomaceous earth; lime; "Cal. onyx" (aragonite); by Myron Angel, field asst.

SAN MATEO COUNTY

1888. San Mateo Co.—geographical and physical features; gold and silver; petroleum; inflammable gas; limestone; bldg. stone; Spring Valley Water Co.; narrative. (8 A.R. state mineralogist 1887/8: 533-536.)

1890. Same; topography; petroleum; gold; coal; bldg. stone; water (wells, strata, etc.); Spring Valley Water Works; by W. L. Watts, field asst. (10 *same* 1889/90: 586-594.)

SANTA BARBARA COUNTY

1888. Sta. Barbara Co.—topography; gold; copper; quicksilver; petroleum; coal; lead; manganese; gypsum; mineral springs; narrative. (8 A.R. state mineralogist 1887/8: 536-540.)

1890. Same; topography and geology; Sierra San Rafael Mts. (mineral resources); quicksilver; Sierra Madre del Sur (mineral resources); Lompec Beach mines (gold); gypsum; by M. Angel, field asst.; Sta. Maria River (geological formations, plates, etc.); Point Sal gypsum mines (geological formation shown by plate, products named); by T. B. Hobson, E. M., field asst. Gas well at Summerland; by F. W. Wheelan. (10 *same* 1889/90: 595-603.)

SANTA CLARA COUNTY

1888. Sta. Clara Co. (8 A.R. state mineralogist 1887/8: 541-550.)

Topography; New Almaden quicksilver mines (Tierras Furnace; Granzita Furnace, Granza Furnace); Guadalupe Quicksilver Mining Co.; limestone and

1889. Rept. on field work in Sta. Clara Co. (9 *same* 1888/9: 48-56.)

1890. Sta. Clara Co.—topography and geological formation; quicksilver; Guadalupe mines; prospecting in Llagas distr.; petroleum; bitumen; coal; natural gas; water (wells, character of strata, etc.); bldg. stone; lime; hydraulic limestone; by W. L. Watts, field asst. (10 *same* 1889/90: 604-619.)

1891/2. Same; quicksilver; manganese and magnesite; Jarvis magnesite claim; Mammoth Magnesite claim; brick; by W. L. Watts, field asst. (11 *same* 1890/2: 374-375.)

SANTA CRUZ COUNTY

1888. Sta. Cruz Co.—topography; mineral resources; gold and silver; auriferous sands; coal; petroleum; oil; cinnabar; lime (Lime Kilns of Holmes & Co., I. X. L. Lime Co.); bldg. stone; granite quarry; mineral springs (analysis of waters from spring on Nichols Ranch); narrative. (8 A.R. state mineralogist 1887/8: 550-556.)

1890. Same; topography and geological formation; bituminous rock; petroleum; auriferous sand; gold quartz; water; clay; bricks; bldg. stone; lime; by W. L. Watts, field asst. (10 *same* 1889/90: 620-626.)

SANTA CRUZ ISLAND

1889. Rept. on field work in Sta. Cruz Is.; by W. A. Goodyear. (9 A.R. state mineralogist 1888/9: 155-170.)

SHASTA COUNTY

1888. Shasta Co. (8 A.R. state mineralogist 1887/8: 562-572.)

Topography; gold-bearing quartz mines; Calumet mine; Riley and Bliss mine; America mine; Central mine; Lost Confidence mine; Celestine mine; Mammoth mine; Gladstone mine; Trinity mine; Lucky Bart mine; Quartz Mountain mine; West Point mine; Eureka mine; White Oak mine; Emigrant mine; limestone quarry; sandstone; narrative.

1890-1890/2. Same. (10 *same* 1889/90 (pp. 627-641)—11 *same* 1890/2.)

Topography and geological features; soil and products; mines and mining; Old Diggings distr. (Texas and Georgia mines, Utah and Cal. Gold Mining Co., Central mine, Calumet mine); Lower Springs mining distr.; Old Diggings distr. (Mammoth mine); Great Silver Lode of Shasta Co.; Flat Creek distr. (Little Nellie mine, Rattler, Black Diamond, Carter, Murry, Elliot and Vandever); French Gulch mining distr. (Washington, Niagara, America and Gladstone mines); chrome iron; Copper City silver mines; Squaw Creek mines—Backbone mining distr. (Uncle Sam and Snyder mines); Cottonwood distr. (Summit mine); magnetic ore; by Alex. McGregor, field asst.

11th rept. by W. G. Hodson.

1896-1901. Comparative table showing increase in mineral production of Shasta Co. (Trans. state agric. socy. 1901: 404.)

1903(?). [Mineral] map of Shasta Co. No scale. 42⅝ x 28⅛ in. (State mining bureau.)

SIERRA COUNTY

1888. Sierra Co. (8 A.R. state mineralogist 1887/8: 573-581.)

Topography; quartz mining and milling (Sierra Buttes mine, Young Amer. mine, Rainbow mine, Rising Sun mine, Eagle mine, Myrtle mine, Gold Bluff mine, Buffalo mine); Drift mines (Bald Mountain Extension claim, South Fork mine); economic minerals (silver, copper, iron ores); Campbell Hot Springs; narrative.

CALIFORNIA

1853. Review of provisions of act authorizing formation of r.r. cos., approved Apr. 22, showing defective restriction of freight and passenger charges. (Govs. mess. Apr. 8, 1854.)

1868. Majority rept. of corporations committee re. fares and freights on r.rs.; objects to too radical a reduction in rates of traffic, until roads shall pay dividends. 5 pp. (App. to jols. 17 sess. v. 2 [doc. 9].)

1870. Rept. of Assem. committee on r.rs. upon question of a reduction in r.r. freight and fare rates; unfavorable to change in law, on acct. of difficulties of construction, lack of population on many of mt. roads, and lack of data on which to base their income. 10 pp. (*Same* 18 sess. v. 2 doc. [27].)

1872. Rept. of Assem. corporations committee upon r.r. freights and fares; adverse to a reduced and rigid tariff, as no complaints have been made and since in Cal. natural obstacles overcome in bldg. roads, the wear and tear on the heavy grades, the disproportion betw. capacity and the actual freight carried, etc., are important factors in ratemaking; recommends that bill do not pass, but that legislation be had, to require from r.r. cos. ann. statistical repts. of receipts and expenditures, and suggests an amdmt. to secure finances of the roads against legislation; also appendix, testimony, etc. 78 (1), 130 pp. (*Same* 19 sess. v. 4.)

——. Rept. of corporations committee on Sen. bill 5, act to amend act to provide for incorporation of r.r. cos., etc.; bill to reduce freights and fares on r.rs., adversely reported upon, because roads in this state are exceptional in their extreme grades and heavy expenses of operating, and no uniform low tariff can be imposed upon all freight carried by them, without reducing their efficiency; with testimony. 19 pp. (*Same* 19 sess. v. 3 doc. [6].)

1874. Rept. of testimony and proceedings had before Sen. corporations committee having under consideration subject of fares and freights. 9, 161 pp. (*Same* 20 sess. v. 4 doc. [13].)

STATE COMMISSION

Under Act of March 24, 1893.
The duties of the débris comr. are defined in sec. 3 of above cited act. Upon the apptmt. of a bd. of engrs. by the U. S. govt. with power to adopt plans and specifications for construction of works for the impounding of mining débris, the state comr. was to consult and advise with such bd. and to examine and pass upon the merits of the works projected by the federal bd.
In view of this relation betw. the federal and state authorities the compiler has deemed it expedient to collate the federal repts. in connection with the state repts.

FEDERAL COMMISSION

Under Act of Congress of March 1, 1893.
By this act the jurisdiction of the comn. extends to hydraulic mining in that portion of Cal. drained by the Sacramento and San Joaquin River systems. The duties of the comn., in general, are the prevention of such hydraulic mining as may be deemed injurious to the navigable waters within its jurisdiction and to mature plans for the improvement of rivers whose navigability has been injured by hydraulic mining.

Under Act of April 23, 1880.

"Act to promote drainage" known as "Débris Bill," contemplated construction of works to improve the water-carrying capacity and navigable qualities of the main and tributary streams, made necessary by the results of the operations of hydraulic mining.

Under the act a state bd. of drainage comrs. with the gov. as president was organized. The surveyor-general and the state engr. were members of the bd. Under the act of Apr. 23, 1880, it became the duty of the state engr. to form drainage districts. The first drainage district formed under the act comprised the territory drained by the Sacramento River and its tributaries. The supervision of the district was confided to a bd. of directors.

ALAMEDA COUNTY

The duty of collecting these statistics was imposed by law upon co. assessors, but there being no reward for compliance and no penalty for neglect, the act gradually became inoperative. Under an act of March 10, 1866, 25% of the pay of the assessors was retained until the reports required by law were furnished.

These reports have been entered under "Taxation" although they are so general in character, for the purpose of fixing the record of the returns. References have been made from various topics discussed in the repts. and relating to subjects in other parts of this volume. These repts. were summarized and published as tables in the surveyor general's repts. from 1855-1882; see above, Taxation: State assessment, etc., serial D.

Indian Wars

serial

A

Board of Examiners of Military War Claims.

1 series

Appointed under Act of May 3, 1852, authorizing the state treasurer to issue war bonds.

1855-1856. Repts. of bd.

In Collected docs. as follows:
1855 in Sen. jol. 1855: 104-105.
1856 " Assem. jol. 1856: 102-103.
" " Sen. jol. 1856: 110-111.

This bd. was abolished by act of Apr. 23, 1855.

2 series

Appointed under Act of April 25, 1857, authorizing issue of Indian war bonds.

1857-1862. Repts. of bd.

In Collected docs. as follows:
1857 in Sen. jol. 9 sess. pp. 46-47.
" " Assem. jol. 9 sess. pp. 63-64.
1860 " Assem. jol. 11 sess. pp. 671-672.
1862 " App. to jols. 13 sess. doc. [30]. 8 pp.

Neither of these series of reports are serial in the sense that annual repts. of an executive dept. are serials. As they concern, however, the work of a body created to carry out a fixed provision of law, it was thought best to collate them as serials, to facilitate the use of the material.

B

War Debt Commissioners appointed under Act of April 19, 1856, to liquidate the war debt of the state.

1857-1860. Rept. of comrs. of the Cal. war debt.

In Collected docs. as follows:
1857 in Sen. jol. 9 sess. pp. 48-52.
" " Assem. jol. 9 sess. pp. 65-69.
1860 " App. to jol. 11 sess. doc. [12]. 12 pp.

No other repts. were made. They are not strictly serial repts. in the sense in which that word is generally used in this index, but are so collated here in order to facilitate use of the material. The first rept., 1857, is also reprinted in the rept. of the agt. and counsel for collecting Cal. claims agst. U. S. 1886, pp. 296-298 (App. to jols. 27 sess. v. 8).
